IRONTON OFFICIALS ARE INVESTIGATING

Sheriff Marshall Says Local Authorities Are Trying to Determine Identity of Men Who Shot the Spaughs.

The officials of Iron County are quietly nducting an investigation on their own at Ironton Saturday morning and seem-ingly attempted to lynch Bill and Arthur Spaugh, who were awaiting trial for the killing of Sheriff John W. Polk.

Governor Folk's communication, ad-dressed to Attorney General Hadley, insisting that an official investigation be at once commenced by the Attorney General's department, was received by Mr. Hadley yesterday morning. What steps have been taken has not been made public. The county officials at Ironton began their investigation into the mob inciden the morning following the raid at the jail, and this is now being pushed under the direction of Sheriff John I. Marshall and Prosecuting Attorney C. T. Damron. Sheriff Marshall said last night over the telephone to The Republic: "We are doing

all in our power to get at the truth of this matter. The county officials are sifting the matter thoroughly and propose to find the guilty parties. Such evidence as we have uncovered we are not ready to make public, but everything possible is being done to locate the men who participated in Saturday morning's attack on "Personally, I have no idea who the

men were who entered the jall by a ruse and had me covered before I could get any assistance. I was in the room to the south of the entrance to the jail while the shooting was in progress and did not see any but the men who kept me under their guns. They were masked and I could not recognize either one of them." Sheriff Marshall said that he had reelved no communication from the Attor ney General, and that he knew nothing of the proposed investigation on the part of the State other than what he had seen in the papers.

The report comes from Ironton that th statement which is alleged to have been made by Bill and Arthur Spaugh in the St. Louis jail, implicating many of the prominent citizens of Ironton in the mob, too absurd to be worthy of refutation.

CITIZEN RIDICULES STATEMENT. A representative citizen of Ironton made this statement last night:

"The alleged statement of the Spaughs is ridiculous to the people of this commu-

of the cases.

similar minte

A leading feature in the testimony introduced before Mayor Wells yesterday against Health Commissioner Simon was to the effect that he had acted with the "greatest discourtesy, officially and professionally." as expressed by Doctor John Young Brown, toward the subordinate superintendents in the city institutions. Evidence was along the line that Doctor Simon had paid too little attention to the duties of his office; that he had neglected his official labors for the sake of attending to professional duties outside, and that he had not made appointments and conducted the affairs of his office as contemplated by the law.

Both sides expressed themselves as well pleased with the results of the day's hearing.

Doctor Simon made the assertion that he was not at all displeased with the results of the day. He said that Mayor Wells had "at least shown his hand."

Doctor Simon was the first witness and was put on the stand at the beginning of the hearing, which was held in the private office of Mayor Wells in the City Hospital, and Doctor H. F. Adkins, superintendent of the Insane Asylum, were the longital at the city for that period."

PRESIDENT COMPLIMENTS SECRETARY HITCHCOCK

ETHAN ALLEN HITCHCOCK, secretary of the Interior, who at Cleve-land recently received the heartlest con-stratulations from President Roosevelt for his conduct of his department,

Charles Wiffler, Aged 19 Years. Is Held for Thirty Minutes Under Crushing Weight of Boiler -Condition Serious.

After being held a prisoner, pinioned beneath a five-ton iron boiler for more than thirty minutes, with his left leg crushed to a pulp, Charles Wiffler, 19 years old, who lives with his parents at No. 7079A Aubert avenue, was freed with the aid of several large jackscrews at the Suburban power-house at Brentwood yesterday.

The young man's condition is critical, as amputation of the injured leg will be necessary, according to the City Hospital physicians.

Wiftler suffered agonizing pain while the boller rested upon his leg, and begged the workmen around him to chop off the leg with an ax lying near, and free him from his desperate position. The workmen tried every way possible to lift the soller, but were not successful until jackscrews had been brought and the boiler raised by this means. The accident occurred at the power-

rouse in Brentwood yesterday afternoon at 5 o'clock. Young Wiffler was employed by John Holland & Co., electrical engineers, at No. 423 San Francisco avenue. with others, to load the boller into a freight car. The huge cylinder was being pushed upon skids to the car door, when young Wiffler ran around its side to adjust it. It is believed that he removed the beam that kept the boiler from slipping, and in doing so straddled the slanting skid upon which the boiler rested. The boller slid down several feet, catching Wiffler's left leg between it and the skid. Young Wiffler's screams attracted the employers, John Holland and George Peters, and they went to his assistance, but they were helpless. The boiler weighed Portland and Praises Exhibit - ave tons and could not be moved an

> proved unsuccessful until the jack screws were brought Mesers. Holland and Peters placed the injured man on a Suburban car, and, accompanied by Patrolman John Sippel, of the Mounted District, were met by an embulance. He was then hurriedly taken

to the City Hospital. Wiffler's condition is critical. The physicians at the hospital say that the leg is so badly crushed that amputation will be necessary. He is a son of Martin Wifed with the exhibits in the Missouri build- fier, who, with the young man's mother, ing. MISSOURI MINERS

Treasury Department Will Take Steps to Stop Importation of Zinc Ores From Canada Under Low Lead Duty.

Wratt Building, 18th and F Streets Washington, July 10 -Joplin and Webb City zinc-mining interests have scored a big victory in a decision announced to day by the Assistant Secretary of the Treasury in charge of Customs, Mr. Reynolds, by which all imported sine must pay the full 20-per-cent ad valorem duty

ssed against the metal. Under the guise of "lead-bearing ore," large quantities of sinc, originating prin cipally in the Northwest Provinces o Canada, have escaped this tax. Missouri nining men have led the fight to evade the competion with the foreign sinc and they have had the united influence of the smelting companies arrayed against them, Mr. Reynolds has accepted the view of the mining interests, though his decision will not take effect until it can be determined what per cent of lead and ore constitutes technically a "commercial

quantity." Such action by the Treasury authoritie has long been solicited by zinc mining interests, who have complained that the regulations as they now stand subject them unfairly to the competition of much foreign zinc, especially that from the Northwest Provinces of Canada. A final hearing in the matter was held to-day be-

fore Mr. Reynolds. Arel O. Ihlseng of Carthage, Mo., or behalf of the mining interests, appeared to urge that the regulation be altered so as to exclude the zinc. Several representatives of large smelting companie were on hand to present the opposite side of the question, which is, principally, that not enough sine is produced in the United States to keep the smelters going, and that, if they cannot thus advantageously import the metal, their plants must be closed a portion of the year. SMELTING INTERESTS.

Those who appeared on behalf of the smelting interests were: B. S. Palmer and H. S. Wardner, president and treasurer of the New York Zinc Company of New York and New Jersey; A. Heckscher, Court had adjourned, but Judge Kinsey had not left the bench. He called Hahn away and undertook to Induce Mrs. Hahn to give up the child peaceably, to allow her to be constituent of the Judge of the Court of the Judge of the Judge of the Judge Kinsey week, from 5 p. to allow her to the Judge of the Judge Kinsey had petiting to be the child the consented of the Judge Kinsey had petiting to be to her similar to constitute a duty of one and one-half cents on the pound of lead contained therein. The orse imported from Land they are classed as lead-bearing ores. The result has been that the importations have rown stendily, it seems that experts die from her mother's arms and without a word more mother's arms and without a word representing the Bertha Mineral Compa ny of Virginia, the Empire Zine Compa-
